TECHNICAL SKILLS

- **Frontend**: Flutter, Dart, HTML, CSS
- **State Management** : GetX, Provider
- **Backend**: Firebase, REST APIs, MySQL
- **Tools & Platforms:** Git, GitHub

WORK EXPERIENCE

Junior Flutter Developer   - ByPeople Technologies   April 2024 -Till now

- As a Junior Flutter Developer, I worked with cross-functional teams to build and maintain mobile applications using Flutter and Dart. I focused on creating responsive UIs, integrating APIs, and managing state with Provider and GetX. I also used Firebase for authentication and real-time database services, while strengthening my skills in mobile app development, teamwork, and Agile practices.

Flutter Trainee   - ByPeople Technologies   January 2024 - April 2024

- During my internship as a Flutter Developer. I worked on developing and maintaining cross-platform mobile applications using Flutter and Dart. I was responsible for building responsive UI components, integrating RESTful APIs, and managing application state using Provider

Python + IoT Intern - InfoLabz   July 2020 - April 2021

- Developed IoT applications using Python and the Django framework, integrating digital and analog sensors.
- Applied fundamental Python concepts to build efficient and scalable IoT solutions.

PROJECTS

Bait - Real Estate Property Platform - ByPeople Technologies   **Technology :** Flutter, Firebase, REST APIs

- Developed a real estate mobile app with rich property listings, agent interaction features, and a portal for managing offers, schedules, and user feedback.

Deep Tech Stars – AI/ML News & Insights Platform - ByPeople Technologies   **Technology :** Flutter, Firebase, REST APIs

- Built a curated AI/ML news platform that delivers real-time updates and personalized content feeds based on user interests and skill levels.

Crewlier – Social & Professional Networking Platform - ByPeople Technologies   **Technology :** Flutter, REST APIs

- Created a social-professional networking app enabling profile matching, chat, and crew management, supported by an admin panel for user and activity oversight.

Other Small Projects

- **Smart India Hackathon (SIH) | Skillitup | Winner | 2022**
- **Student Startup And Inovation Policy (SSIP) | Healfiy | 2nd Runner-up | 2023**
